

# Treehouse Tots COVID-19 Safety Updates

Here you can find some of the updates that we've made to our classrooms to insure the safest setting possible for our children and teachers.

**Touchless Thermometer**

An outdoor handwashing station will be provided in the garden for thorough handwashing upon arrival.

Upon arrival, teachers, children, and parents who will be dropping off will be screened by having their temperatures taken and recorded daily.

**Portable Sink**

**Foam Mats**

Touchless soap dispensers have been placed at all indoor sinks for the most hygienic hand washing

All rugs have been removed and replaced with these high-quality foam mats that can be sanitized and wiped clean throughout the day.

**Touchless Soap Dispenser**

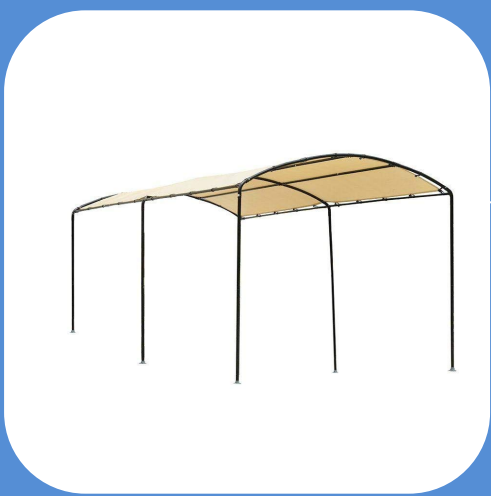

**HEPA Air Purifier**

A disinfectant sprayer will be used to clean our outdoor play space with a nontoxic EPA approved solution after each use.

We will continue the use of our HEPA air purifiers in the classroom to ensure cleanest breathing air possible.

**Professional Grade Disinfectant Sprayer**

**Outdoor Classroom**

We've gathered a large amount of adult and child sized disposable masks and gloves.

Permanent canopy installed in outdoor play space to create outdoor classroom. We will maximize time in our outdoor classroom (meals, activities, circle time etc.)

**PPE Equipment**

**Safety Training**

An Assistant Teacher will be hired for additional support. Their main focus will be to execute thorough cleaning/sanitizing between sessions.

In addition to CPR and First Aid certifications, all teachers have completed disinfectant safety training.

**Additional Support**

**Touchless Hand Sanitizer Dispensers**

Two commercial grade hand sanitizer dispensers have been installed. Located at gate entry for all adults for entering/leaving and in outdoor play space for teachers and supervised children.
